Support For Others

Our Services

Portland District Portfolio

The Portland District is committed to meet our Nation's civil works needs as we move into the 21st century. We offer a diverse portfolio of capabilities as represented by the experience and qualifications of our staff and through our many contracts within the professional community. We can provide a broad range of services for investigation, planning, engineering, design, construction and operations in the areas of water resources development, environmental restoration, civil works, hydropower and fish protection and enhancement. We also draw on the expertise of Corps professionals worldwide and support other government agencies through our many authorities.

Contact us for more information on what Portland District can do for you.
